You are blind  
Deny the sun and light  
Who are the objections  
Where it comes, the doubts?

Procreation of the wicked  
Procreation of the wicked

Serenades of oppositions  
Absurdity, human fate and hope  
True reflection of community  
Procreation of the Gods and Lords

Procreation of the wicked  
Procreation of the wicked

Cain and Abel's love and dead  
Love and hate is what we are  
Your dagger and grail have  
Fallen off the altar

Procreation of the wicked  
Procreation of the wicked

Procreation
