you are blind
deny the sun and light
who's are the objections
from where come the doubts?

procreation of the wicked
procreation of the wicked

serenades of oppositions
absurdity, human fate and hope
true reflection of community
procreation of the gods and lords

procreation of the wicked
procreation of the wicked

kane and abel's love and dead
love and hate is what we are
dagger and grail (have)
fallen off the alter

procreation of the wicked
procreation of the wicked
procreation
