No surrender  
Still unhurt, we fly

Intense fiercing war, insult no tolerance  
Against one rule, to fit 'em all  
To blur my eyes, already blind  
To keep my hands from moving free

The pulse of what we live, the hate we build inside  
Create my shield to fight them all  
They see the things they can not be  
To understand they can't be free

No surrender  
Still unhurt, we fly

We learned the way, how to be real  
What we say we live  
It keeps me sane to embrace our will  
And go against inhumanity

My saga, my saga  
Battle in the fields of fear  
Attack defend, it's never over  
My saga, my saga, no regrets

It doesn't matter where you are  
Do what you can with what you have  
It doesn't matter where you are  
Do what you can with what you have

No surrender  
Still unhurt, we fly

We learned the way, how to be real  
What we say we live  
It keeps me sane to embrace our will  
And go against inhumanity

My saga, my saga  
Battle in the fields of fear  
Attack defend, it's never over

My saga, my saga, no, no, no, no regrets
