No soul over body
No body without soul
No brain, no information
No vision, no protection

No church in politics
No profit in religion
No suffering without cost
All I believe is freedom

No minds without solutions
No laws without our vote
No lies in conversation
Handle who you provoked

Cannot be, cannot feel
Cannot think, cannot see
Cannot live in dignity

Our life, our way
Our life, our way
Our life, our way

Cannot be, cannot feel
Cannot think, cannot see
Cannot live in dignity

Our life, our way
Our life, our way
Our life, our way

We are tired of being denied
We are sick of being sick
We are feeding all our anger
We are tightening up our fist

We are failing to prevent
Our fate from disillusion
We are failing to protect
Our lives from full destruction

We are bowing all our heads

To doubtful leaderships
We are moving all our trust
To judge what is unjust

Cannot be, cannot feel
Cannot think, cannot see
Cannot live in dignity

Our life, our way
Our life, our way
Our life, our way

Cannot be, cannot feel
Cannot think, cannot see
Cannot live in dignity

Our life, our way
Our life, our way
Our life, our way

Exploitation, segregation
All comes crashing down
Exploitation, segregation
All that is a falling nation

Cannot be, cannot feel
Cannot think, cannot see
Cannot live in dignity

Our life, our way
Our life, our way
Our life, our way

Cannot be, cannot feel
Cannot think, cannot see
Cannot live in dignity

Our life, our way
Our life, our way
Our life, our way
