### "Gonna Move"

Visit "[Gonna Move](#)" on [MotoLyrics.com](http://MotoLyrics.com)

When I was a little boy I felt so alone  
Quiet country house that I had to call home  
Living with a couple folks, rich millionaires  
Sat on their money Lord it seemed they didn't care

Finally we moved to our own place  
Where I could walk around with a smile on my face  
And I knew in order to be a man  
I had to pull up my roots and move on in this land

I'm gonna move away from here  
You can find me if you want to go there  
I'm gonna move away from here  
You can find me if you want to go there

Came to a school in the big city  
Looked around at the lights and I thought they were  
pretty  
They told me to teach me to live by their rules  
So I wouldn't be nobody's fool

I found out, not too long  
Their rules wouldn't let me sing my song  
I knew in order to be a man  
I had to pull up roots once again and move on in this  
land

I'm gonna move away from here  
You can find me if you want to go there  
I'm gonna move away from here  
You can find me if you want to go there

I'm gonna move away from here  
You can find me if you want to go there  
I'm gonna move away from here  
You can find me if you want to go there

Then I joined the college ranks  
There they said they'd teach me how to think  
Gave me books to read and papers to write  
They didn't know about this boy's come to fight

But I found out after awhile  
Reading those books was making me loose my smile  
I knew in order to not conceal  
I had to play music and express what I feel

I'm gonna move away from here  
You can find me if you want to go there  
I'm gonna move away from here  
You can find me if you want to go there

Jump on a train, come on the train with me  
Come and ride, you will see  
Come on this train, success bound  
We got to get the fee? and the? came around  
We're gonna get there in a little while  
Come on with me, depart in style  
Roll on, roll on, roll on, roll on  
Gonna move, gonna move on the train  
If it ain't fast enough I'm gonna jump on a plane
