"After All This Time"

Visit "[After All This Time](#)" on MotoLyrics.com

After all this time, I'm still haunted by your memory
Usually I'm fine, but sometimes it gets the best of me
I run into a friend, they ask me where you've been
I just hear your name, and I still feel the pain

After all this time

Everywhere I go, I'm seeing things that keep reminding
me
Like an old country road, one of the places where we
use to meet
I knew the day I met you, it'd be hard to forget you
Now those days are gone, but I'm still holdin' on

After all this time

Right around the block, that's where we first made love
You swore we'd never stop, said we fit like a glove
On the day you left, I called out your name
Tried hard to forget you, but I still feel the same

After all this time
After all this time yeah
After all this time
After all this time
After all this time
After all this time
After all this time
After all this time
After all this time yeah
