All eyes on me right now
I'm here to get what I deserve
too randy
I ain't no candy
I used to be down with the way
damn You treated me ah
I won't entertain you
and I won't attain you
Boy don't try to turn down
Turn down turn down
Tricks that you do is outrageous
Boy you know I'm courageous
and I'll try to turn down
Turn down turn down
And I like to be like in danger
I don't even want you to change it

Where you been little bastard?
Your words don't stick, hey whatever
Where you been little bastard?
It's my turn pull up a lever
Where you been little bastard?
Your words don't stick, hey whatever
Where you been little bastard?
It's my turn pull up a lever
Where you been?

How much can I take love
But I want it more then I need
Can I get some
It's really awesome
I've been waiting for you
And my body starts to ache
Under your swaying

Here me I'm saying
Boy don't try to turn down
Turn down turn down
Tricks that you do is outrageous
Boy You know I'm courageous
and I'll try to turn down

Turn down turn down
And I like to be like in danger
I don't even want you to change it

Where you been little bastard?
Your words don't stick, hey whatever
Where you been little bastard?
It's my turn pull up a lever
Where you been little bastard?
Your words don't stick, hey whatever
Where you been little bastard?
It's my turn pull up a lever
Where you been?

where's you been dude tonight
who you looking for alright
you won't hide from me no no
drop the beat ace back down
I will make your delight
pop the drums your sweet like
where've you been dude all night
fuck my bad ass goodbye
goodbye
goodbye
goodbye
goodbye

Where you been little bastard?
Where you been little bastard?
Where you been little bastard?
Where you been little bastard?
Where you been little bastard?
Your words don't stick, hey whatever
Where you been little bastard?
It's my turn pull up a lever
Where you been little bastard?
I wanna get in your hot groove
Where you been little bastard?
Come and make your next chess move
Where you been?
Where you been?
Where you been?
Where you been?
Where you been?
