Ohhh...
Yeah.Yeah.Yeah.Yeah!

How to choose?
Who to be?
Well, let's see
There are so many choices now.
Play guitar, be a movie star.
In my head are voices
Why not, try everything?
Why stop, reach for any dream?
I can rock, cause it's my life.
And now's the time,

Who will I be?
It's up to me
All the never ending possibilities
That I can see
There's nothing that I can't do
Who will I be?
Yes, I believe
I get to make the future what I want to
If I could become anyone and know the choice is up to
me
Who will I be?

Yeah yeah...

If I decide,
I'm the girl to change the world
I can do it anytime.
Opportunity right in front of me
And the choices, all mine

Why not, try everything?
Why stop, reach for any dream?
I can rock, cause it's my life.
And now's the time,

Who will I be?
It's up to me

All the never ending possibilities
That I can see
There's nothing that I can't do
Who will I be?
Yes, I believe
I get to make the future what I want to
If I could become anyone and know the choice is up to
me
Who will I be?

I wanna find out who I am inside.
Who will I be?
I wanna show the, the way that I can shine...
Yeah... Oh yeah... yeah...

Who will I be?
It's up to me
All the never ending possibilities
That I can see
There's nothing that I can't do
Who will I be?
Yes, I believe
I get to make the future what I want to
If I could become anyone and know the choice is up to
me
Who will I be?

Ohh... who will I be?
Who will I be?
