Hey—are you thinking what I'm thinking? I thought so  
Well, come over here—now

Tell me what you're feeling now, when you're looking into my eyes  
It doesn't matter what you do, or what you did, 'cause now you're mine  
Forget with finishin' with the flow, the one you knew, the one you learned before  
'Cause baby when I'm through with you, you'll be screaming back for more  
All the things we're gonna do, will make you see—I'm so perfect for you

(I'm perfect) you're about to see  
(We're perfect) you gotta trust in me  
(So perfect) and all I'm gonna go  
Baby, you're about to see your perfect love for me

You gotta tell me what you need, 'cause I'm ready to go all the way through.  
And although time is on a stop! But don't worry, 'cause I'm right here with you.  
All the things we're gonna do, will make you see—I'm so perfect for you.

(I'm perfect) you're about to see  
(We're perfect) you gotta trust in me  
(So perfect) and all I'm gonna go  
Baby, you're about to see your perfect love for me
