### "I Am With You"

Path crossing through two different plains  
Enscribed coffins but without the names  
Someone please tell me that we're alive  
Burn the cross for the sake of those who died  
God is with you or so they said  
They believed now fields are coloured red  
Speak the truth or forever hold your peace  
Godless people trust in me  
I am with you, until the end  
Gas the masses with your poisoned tongues  
How can evil be the chosen one  
Flowered landscapes destroyed to ashes  
The lie is greater and the truth means nothing  
I am with you, I am with you  
Religious leaders steal your soul for keeps  
The mind is strong, yet the flesh is weak  
Our only saviour is a dream of hope  
So close your eyes and pray for some  
These words take on new meaning  
As I look on a world so cold  
Passions burns, passions fire, body's turning  
How I love to love you by myself  
God is with you or so they said  
They believed now fields are coloured red  
Speak the truth or forever hold your peace  
Godless people trust in me  
I am with you, until the end  
Path crossing through two different plains  
Enscribed coffins but without the names  
Someone please tell me that we're alive  
Burn the cross for the sake of those who died
