Pretty girl with eyes on your own
Selfishness is all you've ever known
I know what your going through, yeah
Pretty girl I want you to know
Your priceless no what you're told
You know you got it going on
I can't get by with anyone else but you (2x)

Hey girl you're valuable
Can't wait to see your heart full
I know you got it going on
So please girl disregard the lie
Of the one track mind of the trashcan guy
He's not that chivalrous (chivalrous)

I can't get by (get by!) (2x)
Without you, without you
I can't get by with anyone else but you (2x)
I can't, get by, without you....without you
Your blemishes aren't blemishes at all (2x)

Find a way, find a way
Find a way to bring you back to you again
Find a way, find a way
Find a way to bring you back to you again
Find a way, find a way
Find a way to bring you back to you again
(I can't get by with anyone else but you)
