INTRO

sing it loud and clear
we're the voices
this is who we are
we're the voices

VERSE 1

we are nto a scene but come bearing
songs of freedom like marley to the masses
we are all diseased and tearing
we see the people dying daily and it grabs us
we are not all clean but come wearing
fronts and facades that raise the odds of you
and i serving other gods
which leads to destruction, selah
we are all obsessed with comparing
one another to eachother and it scares us
on at a time we need to find out identity
too many times we see the fog in the clarity

PRE-CHORUS

can you hear me loud and clear

CHROUS

ah, this is who we are
we're the voices of the generation
we make choices that mold a nation
puttin down all frusteration
and sing it loud and clear
on every station
we are the voices
we are the voices

VERSE 2

voices aren't scared to sit in a chair and share
anywhere
what the heart cant compare
we need to learn to dare to bear
burdens of another voice that has a choice to care
we need the voice to sing our remedy

oyu and i like sounds of a symphony
whats my identity
who am i
just a kid who seeks love from the Most High

PRE-CHORUS

Can you hear me loud and clear

CHORUS

ah, this is who we are
we're the voices of the generation
we make choices that mold a nation
puttin down all frusteration
and sing it loud and clear on every station
(we are the voices, we are the voices)
we all need a reformation
we the people serve salvation
from the voice that shatters lands
your voice is in demand

we're the voices
sing it loud and clear
we're the voices
this is who we are

you'll never shut us up
you'll never shut us up
you'll never shut us down
we are the voices
