Some things changing inside of me
I need to write down before I forget
You never told me you're alone

Fiery and anger breaks me down
I'm so stuck and I can't get out
But I can only hate you, hate you...

Can't you feel me
Can't you love me

Even if you hurt me
I still remember about your stars
I could understand, stand aside
(Aside)...

Wanted something I can't take
I'll be stronger once again
Don't worry about me, trust me
Please trust me now

Now, I have to see it
This is for my love
Open this heart and my mind
Let me believe

Now, I have to listen again
This is for my love
Remember why I'm still in here
'Cause it's all for you

One more time help me sing again (yeah)
You can hurt me, I'll still be the same
When it's something I can't take (yeah)
I'll be stronger once again
I need you to the end, my love
Taking time is it for

You can hurt me down
(You can hurt me down)
I'll give you my love

You are good as you are
(For...)(What should I do)
(For...)(What should I do)

I will give myself for you
(Should I stay this way)
(Should I leave you)
You can live your own life for you
It's all for you.
