Every morning I wake up and you are home  
But in your eyes I see that I'm alone  
You've left me with your body in my arms  
But I can't feel you anymore - You are gone

I can touch your skin but you aren't there  
Frustration burns in me, it's more than I can bear  
I wanna take you in my fists and squeeze the life back  
into you  
But there is nothing I can do - You are gone  
And I can hold you in my hands  
But you are gone, you are gone, you are gone

You've slipped away like a fistful of sand  
You are gone, you are gone, you are gone

I am staring straight into your eyes  
You never turn away or tell me lies  
But you are with some other man while I am lying next  
to you  
And there is nothing I can do, you are gone
