He's gonna break your rules and everything you  
construct,  
Everything you say  
Oh my friend it's time for you, I never felt so good  
He's gonna take your brain to make a bullshit squash...  
To make your favorite drink  
Oh my friend it's time for you, I never felt so good

He's waiting for you, he's waiting for your end now  
Outside in the black car  
He's by my side when I lose my mind  
Outside in the black car  
I feel fine, I feel glad, it's all right oh yeah  
Yeah I know, yeah I know your end
