Pegasus
"Man On Mars"

Who never had a chance to see the universe
Who never had a chance
Who never had a chance to gaze at a universe
Who never had a chance

And sometimes I catch myself glancing at the stars
Waiting for a sign to come
But there's just some black hole
We're lost in the dark, waiting for a light to come
My decision is made before it gets too late

Chorus
Gonna be the first, gonna be the first man on Mars
Gonna be the first, gonna be the first who's gonna touch the stars
Gonna be the first, I wanna be the first
Gonna be the first man on Mars
Gonna be the first, I wanna be the first
Gonna be the first who touches the stars

And who never had a doubt that we're all alone
Who never had the doubt
And sometimes I catch myself trying to pretend
That there are beings in another world
Staring in that hole searching for a sign
Ready to spread the word
My decision is made before it gets too late

Chorus

Gonna be the first, gonna be the first (4X)

And my decision is made before it gets too late

Chorus
