Do I have a deal for you, step into the back
Who knows if you'll bait and switch me right into a trap
Often I am guaranteed to be left with a shrug
She'll move out like an animal that don't need any
drugs

I'm guided like a missile
That's launched from far above
I kinda hope you're in this for the us

I know that you've been told and told sex is all I want
Beginning in the high school years guys tried to hook
things up
So would it make you laugh at me if I said I'm done
With circuit training, quick first dating, hanging out in
clubs?

I'm guided like a missile
That's launched from far above
I kinda hope you're in this for the us

In it for the us
In it for the us
In it for the us

That's my story, that's my rap I'll take it as it comes
Bide my time and try my best and see if we're in love

I'm guided like a missile
That's launched from far above
I kinda hope you're in this for the us
I kinda hope you're in this for the us
