The moments of caring  
the moments of sharing  
They're the times that mark the miles stones  
along life's way  
They're the miracles of love that happen ev'ry day.  
We'll share these moments forever  
the laughter  
the cares  
our hopes and our prayers  
We'll share these moments forever  
the joy and the tears of life through the years  
These moments will live forever

A life time together  
a life time to remember  
You and I have found so many memories  
In the precious moments shared  
with friends and family  
We'll share these moments forever  
the laughter  
the cares  
our hopes and our prayers  
We'll share these moments forever  
the joy and the tears of life through the years  
These moments will live forever  
They're the times that mark the miles stones  
along life's way  
They're the miracles of love that happen ev'ry day.  
We'll share these moments forever  
the laughter  
the cares  
our hopes and our prayers  
We'll share these moments forever  
the joy and the tears of life through the years  
These moments will live forever
