Walking on his highways  
Walking on his highways  
We leave the land  
We leave the land  
And float inside the dark, black water  
And float inside the dark, black water

Robin flies again  
Robin flies again

She flew low over the highways  
She flew low over the highways  
And I saw the wind  
And i saw the wind  
Blowing back her barbie doll hair  
Blowing back her barbie doll hair

Robin flies again  
Robin flies again

And in a kitchen in Kentucky  
And in a kitchen in kentucky  
She thinks she's Peter Pan  
She thinks she's peter pan  
And in the bottom of a concrete basement  
And in the bottom of a concrete basement

Robin flies again  
Robin flies again
