(Let me wrap you in yellow)

Won't face the world that surrounds us, guess you're
no
Longer trying
Come lay down beside me, hand me your fears
Wrap me in yellow skies. With you hope so let's give it
All
I'm lost in you, let me dive into...
(Just wanna make you happy)

If your sun fades away
I'll do all just to make it shine
Precious one
It's okay
I'll be here to kiss your demons away
(I'll be there to kiss your demons away)
(La la la la la la la la la la la...)
I'll kiss your demons away

(La la la la la la la la la la la...)

Over suburban dark clouds
On a cosmic blanket we're flying
Don't worry my baby
I'll take you there (I'll take you there)
Wrap me in yellow skies
Tonight's the night we'll fly

If your sun fades away
I'll do all just to make it shine
Precious one
It's okay
I'll be here to kiss your demons away
(I'll be there to kiss your demons away)
(La la la la la la la la la la la...)
I'll kiss your demons away
(La la la la la la la la la la la...)
