I don't wanna kiss your cries  
I don't wanna say goodbye  
I just want me here beside you now  
I don't know, could I be blue?  
Red og misty, trapped in rouge  
Somewhere in between I'll find myself (myself)

Your fire's trying to blind me  
Say I'd better turn it away now  
But I wanna stay inside you  
The wind is trying to change me  
Telling me to wipe you away now  
I wanna stay inside you  
Just wanna live inside you  
It's all I really want now

Is there room enough for me?  
Let me look inside and see

I think I see that little heart, for me  
I wish you'd sway with me  
Come and dance with she  
I'll be your buttercup, we'll fly away today

Your fire's trying to blind me  
Say I'd better turn it away now  
But I wanna stay inside you  
The wind is trying to change me  
Telling me to wipe you away now  
I wanna stay inside you  
Just wanna live inside you  
It's all I really want now  
And I beg you baby, stay

The world falls down  
Without you
