

## Perseids

### "Time Comes"

Visit "[Time Comes](#)" on [MotoLyrics.com](http://MotoLyrics.com)

When the time comes  
The rain is gone  
In every sight  
In every tone

I've seen it  
Beyond window  
Sunshine glows  
And green meadow

I need you  
To stay by my side  
Every day  
And every night

Everywhere  
Just passers-by  
They can't see  
Nature's brightside

Chorus:

See it  
What it's like  
Living on  
The world's bright side  
Know it  
I don't mind  
I can't blame you  
For going dark side

The sun and  
The Moon above  
Lighting our  
Path to growth

The wind is  
Blowing off  
And the birds  
Are flying back south

I need you  
To stay by my side  
Every day  
And every night

Everywhere  
Just passers-by  
They can't see  
Nature's brightside

Chorus:

See it  
What it's like  
Living on  
The world's bright side  
Know it  
I don't mind  
I can't blame you  
For going dark side

I need you  
To get back home
