For the last time I beg you
Darling we can make it through
Take my hand and believe me
Our time will not be due
There's no God girl I am sorry
You can keep Him in your soul
Make your move and don't worry
I will catch you as you fall

Ch-Oh come on now I want you
I will wait for you until I die
Oh come on now I need you
Take my hand and give me life

Now you're starring at me as
If there's nothing to be found
Like a flower that is withered
Our love is more profound
Don't give in to this notion
Take my word for this is true
That out world isn't dead yet
And you know I'll help you through

Ch-Oh come on now I want you
I will wait for you until I die
Oh come on now I need you
Take my hand and give me life

Ch-Oh come on now I want you
I will wait for you until I die
Oh come on now I need you
Take my hand and give me life
