From a little light of love
I was born and in my cry, my cry
Was a little light of love
For the honoring of life
And the pharons of my soul
Is this light of love
Precious little light of love
There's a candle burning on
In the breezy shades of night
I keep up my faith and underset my hope
To call the realm of light
A treasure
Your shiver
In the middle of the shady desert
Brings on a field of light
In a light of love
Fairy light of love
Only one religion
Will lead us to the love we aim for
Over the dark illusions
Of the warring nations

And when the figure leads to power
The destruction glorified higher
And when the war is nearly over
How come the leader's held in highest honors
Would you die
For their lie
The greedy hunting cry
You rely
On your light
Little loving light
A little light of sole religion
Well a little light of love
A little light of soaring freedom
Just a little light of love
A little light of sole religion
Take this little light of love
A little light of love and freedom
Take me
A little light of soul religion
A little light of love and freedom
