Come from within  
Wherever you've been  
I know you're not sleeping  
Face what has to come  
Challenge what you've done  
Before the devil comes creeping  
It's never been like this before  
And I can justify what for

When you were younger you filled up your hunger  
With leaving  
Innocent eyes full of surprise  
You were gleaming  
It's never been like this before  
I can justify what for

Canadaâ€¦

Was it something that they said  
That made you slow down?  
Innocence taken, turned you around  
You were misplaced in this town

Time will heal, time comes 'round
