Verse:

There's a place I go... when memories are you.
There's a place I go to remember.
Where Love was one a dream that we shared...
By the old covered bridge in summer...
I remember.

I remember the day when we carved our names... on
that old covered bridge in summer.
How we laughed and we cried as we stared in each
others eyes... and the promises we made where
forever... I remember.

Chorus:

We would walk along that old winding stream... holding
hands... making plans.
Little did we know what time would bring... little did we
know... back then.

Verse:

I remember the day when we carved our names... on
the old covered bridge in summer... and today they
remain... thru the snow and the rain... thru the years
that time has weathered... I remember.

There's a place I go... when memories are you.
There's a place I go to remember.
Where Love was one a dream that we shared...
By the old covered bridge in summer...
I remember... I remember.
