I told her I was on my way to come and get her
We were going to meet up with a few friends, ya know
And bend some corners in the four wheelers, we'll just
have some fun
It didn't go as planned
Well, not for long, check this out

You know
I wanna show you the finer things
Show you places you've never been
Things you've never seen

Baby
There's so many things we can do
Set sail with the whales in Peru
We can go everywhere just you and me
Let's take a trip to the island of Sicily
You into art let's hit the museum
Or go to Rome and make love in the Coliseum
Enjoy the scenery
It's just you and me
The opportunities are endless when you're here with
me
The jets always gassed up ready to go
Take you to a place that you'd never know
You want a resort let's hit Macau
Then fly to Brazil then hit San Paolo
Take you around the world this trip's never over
The food is amazing in Colombia Bogota
I think that should be our next destination
Let me call 'em up and make some reservations

Let's go let's go
Wherever you wanna go
I don't mind take time
Cuz you're my girl
Let's jump on a jet let's go
Let's go let's go
Wherever you wanna go
I don't mind take time
Cuz you're my girl

Let's jump on a jet let's go

This can be a permanent vacation
Make sure you taste the noodles at Crustaceans
In LA, that's my home
And they miss me whenever I'm gone
But it's okay
Cuz I'm with you
We on the west make sure we hit Cancun
So you can get a tan
Even though you're hot
I'm tryna make love on the beach and hit ya every spot
I'm a beast and you know I like it my way
Show you the real animals in Zimbabwe
On a safari, then jet to Maui
I love the way you put it on me oowee
Damn girl you're amazing
Why you squinting
Like you're Asian
I know the stars are bright
We can go all night
Just get on the plane and I promise that I don't bite

Let's go let's go
Wherever you wanna go
I don't mind take time
Cuz you're my girl
Let's jump on a jet let's go
Let's go let's go
Wherever you wanna go
I don't mind take time
Cuz you're my girl
Let's jump on a jet let's go

The reason that you're here is so evident
So elegant heaven sent unlike any sediment
No acting you're never with the drama
Sex so good, you put me in a coma
It's crazy, what you do to me
That's why I keep you in the finest jewelry
Tiffany's and Jacob, no relation
You never believed the lies or the allegations
Don't know where I found you
You're the first thing I've wanted to hold onto
When I'm down you're the one that I run to
And when you get me up you're the one that I come to
I swear this life's so crazy
Never had thoughts of giving you my baby
But I'm convinced, think you're the one
I'm scared of love but this time I won't run

Let's go let's go
Wherever you wanna go
I don't mind take time
Cuz you're my girl
Let's jump on a jet let's go
Let's go let's go
Wherever you wanna go
I don't mind take time
Cuz you're my girl
Let's jump on a jet let's go

Baby
When you're in my world it's our world
All the places we go
All the things we do
All the memories we create
You're already here
There's no need to gas you up
Ya know
B

Let's go
Let's go
I know you wanna come with me
I know you wanna come with me
Let's go
Let's go
I know you wanna come with me
I know you wanna come with me
