Lock and load turn up the power
Count down to zero hour
Free you spirit free you mind
Are you ready can't stop this high

Crazy grooves

This bass is hot it's gonna burn
We're past the point of no return
Release the pressure your missions clear
Make the score the time is here

Crazy grooves

Bring it on the floors' waiting
Turn it loose no hesitating
Hang with it this mix can fly
You can't say no just let it ride

Crazy grooves
