"Surrender"

It seems that we're the last to know
Try no let our feelings show
Fell so strange, always in a spin
Falling out and falling in

The look of love is in your eyes
Don't let this chance pass us by
Let's take it now, even fools can win
Open your heart and let love in

Surrender
You can't win
Surrender
Give in
Surrender
Don't run awy
Surrender
Love's gonna get you

Love's an island in your heart
Two loves but two worlds apart
You hide behind your masquerade
Never give yourself just walk away

Surrender
You can't win
Surrender
Give in
Surrender
Don't run awy
Surrender
Love's gonna get you
