"Touch My Life"

Visit "[Touch My Life](#)" on MotoLyrics.com

Reach into your heart
Step out of your life
Into the darkness
Kiss the night

Stand on the edge
Face your fears
Don't be afraid
I'm waiting right here

Closer and closer
Every day
Let love
Show the way

Don't stop now
You're breaking through
Now and forever
Loving you

Keep on running
Into the light
Waiting for you
All my life

Don't give up
We've come to far
You'll soon be safely
In my arms

Touch my life
Touch my life
Touch my life
Touch my life
