Emptied out city streets,
Instead of cars and human feet.
What happened to them, I don't know
But we're stuck on Earth,
With worry and woe.

Hurry Up, Hurry Up,
Hurry Up Lets Go.

There's a giant rock not far from here.
It's a holy place that filled with fear.
What happened to it, I don't know.
But we're stuck on Earth,
With worry and woe.

Hurry Up, Hurry Up,
Hurry Up Lets Go

I found NASA buried in he sand.
I dug it out with my bare hands.
What happened to them, I don't know,
But we're stuck on earth,
With worry and woe.

Hurry Up, Hurry Up
Hurry Up Lets Go

I'll Tell You What Space Means To Me.
Oh Yeah.
Space Is The Place.
A New Home For The human race.
