"Make A Circuit With Me"

Visit "[Make A Circuit With Me](#)" on MotoLyrics.com

Yeah, sweet romance is not for me
I need electricity
If you wanna make me flip
Hit me with a microchip

[Chorus]
I need a diode, cathode, electrode
Overload, generator, oscillator
Make a circuit

Just plug me in and go go go
I'll be your human dynamo
Signals in my power cord
Signals down my circuit board

[Chorus]

Yeah, I'm an AC/DC man
You can read my circuit diagram
I feed on electric jolts
I need fifty-thousand volts

[Chorus]

A sweet romance is not for me
I really need electricity
If you wanna make me flip
Come on and hit me with a micro chip

[Chorus]

I'm an AC/DC man
You can read my circuit diagram
I feed on electric jolts
I need fifty-thousand volts

[Chorus x 6]
