Well it could be all roads eventually  
And it could be meetings are destined to be  
Well it could be  
Well it could be there's nothing new in these stars  
And it could be I'll stay wherever you are  
Well it could be you and me against a world of pain  
And it could be I'll smile beside you in the rain  
Well it could be a new world right out the door  
It could be all that for us to explore  
It could be  
All storms are beautiful, all fall you down my way  
All raging beautiful. Gaze upon you, when I saw you  
Heart where have you strayed? Waiting for you,  
Will adore you - Come, twister stay  
All storms are beautiful  
Hold me 'til I feel the world is real  
Always so beautiful  
Feast upon me, lips upon me tear me from the floor  
Whip right thru me, wind consume me  
There is only more  
Will it be you?  
You against them
