Your eyes they do deceive you
In my own I can 't believe you
But I don't care I don't care
That I'm nowhere near you
Through the receiver
I can still hear you
In your voice I can hear
You wouldn't look at me dear
If I were there you wouldn't
Look into my eyes

It's dangerous for us to keep on writing each other (4x)
And I don't care I don't care
When you drive so far away
When you drive so far today
Into the sun you've gotta' run
You can stay one more day
I can show you how
C'mon babe just a day you can't leave me now

It's dangerous for us to keep on writing each other (4x)
(When we both have another)
How can you sin in your skin?
You're so thin you're so young
And so numb a perfect one
A perfect stare but you're so barely there
I would share but I don't even care
If it was fate to stay in contact
Could you wait until I got back
It's too late to step back
Could you wait until I got back
It's dangerous for us to keep on writing each other (8x)
(When we both have another)
