I Stand in awe to think about  
How you never cast me out  
Even when I let you down  
Your love stayed just the same

I sit in tears to talk about  
The heart of fears and full of doubt  
I never really kept my word  
The things I promised you

Chorus  
But you are faithful  
Never shaken  
There's no shadow of turning in you

I Stand in awe to think about  
The world you made with just one shout  
And that same Word is ringing out  
Throught the galaxy

I stand in Joy to proclaim  
How you let us wear your name  
Even when we are so weak  
You somehow make us strong

You are steady  
Never changing  
Jesus help us  
To be like you
