

Session Road "Song For You"

Visit "[Song For You](#)" on MotoLyrics.com

Can You feel this deep within
When our eyes met the fire deep inside
Can you feel it deep within
When our lips met the burning deep inside
I've never known a love like this, 'till you
I've never known a love like this, so true
When you're near me, oh, ho
I'm drawn to steady myself into your arms
When you touch me, oh, ho
I know I'm ready to give my world to you
I've never known a love like this, 'till you
I've never known a love like this, so true
Bridge:
Oh I know that I was born to love you
Oh I know that I was born to love you
I've never known a love like this, 'till you
I've never known a love like this, so true
No I've never never known love like this, no no no, no,
oh
No I've never known love like this, so true
