Who'd of thought that we'd still be here  
After all that we've been through  
My life has been an endless highway  
But every road leads back to you

We shared laughter we shared pain  
But through it all one thing remains  
If you should ever need somebody who will care  
Just lean on me you know that I'll always be there  
In good times, in bad times  
In happy and in sad times  
Friendship never ends... Forever Friend

If you can dream it you can do it  
That's what you told me from the start  
You've been a friend now to so many  
But I'm the luckiest by far  
In a world that's full of change  
There's just on thing that stays the same

If you should ever need somebody who will care  
Just lean on me you know that I'll always be there  
In good times, in bad times  
In happy and in sad times  
Friendship never ends... forever friend

I will always be right there  
Friendship never ends  
Friendship never ends... Forever Friend
