If I seem a little strange
Give me a minute to explain
This feeling that's come over me
Has endless possibilities
It may be crazy
But I got touch you tonight

See my heart look in your eyes
I promise it's not telling lies
It's natural to feel like this
Perpectually turning bliss
And now I must confess
I only have one small request

I want your kiss (kiss)
I can't resist (resist)
I've never ever felt like this (like this)
I need you every night and every day
Please believe me when I say

I want your kiss (kiss)
Here on my lips (my lips)
Baby all in all it's perfect bliss
I need you more than any words convey
Please believe me when i say

I've made all my intentions clear
I'll keep you safe I'll crush you fear
So many things I want to do
Wait till get my lips on you
I'll take you places you've never ever, ever been before

So get a little closer now
Just relax I'll show you how
Let me in to seal the groove
Baby I'm so into you
Girl i must confess
I still have one more request

I want your kiss (kiss)
I can't resist (resist)

I've never ever felt like this (like this)
I need you every night and every day
Please believe me when I say

I want your kiss (kiss)
Here on my lips (my lips)
Baby all in all it's perfect bliss
I need you more than any words convey
Please believe me when i say

(I want your kiss)
There's nothing I want more than this
(I want your kiss)
It's not use trying to resist
(I want your kiss)
So don't be shy
Just close your eyes
And say that I'm the only one

I want your kiss (kiss)
I can't resist (resist)
I've never ever felt like this (like this)
I need you every night and every day
Please believe me when I say
I want your kiss (kiss)
Here on my lips (my lips)
Baby all in all it's perfect bliss
I need you more than any words convey
Please believe me when I say

I want your kiss (kiss)
I can't resist (resist)
I've never ever felt like this (like this)
I need you every night and every day
Please believe me when I say
I want your kiss (kiss)
Here on my lips (my lips)
Baby all in all it's perfect bliss
I need you more than any words convey
Please believe me when i say

I want your kiss
