So many people, getting down for the cause,
Booties are shakin, but we aint breaking any laws,
The whole world got it, Like my hand on the mic,
Rollin' hard like a bum on a bike,
We got to have money, don't need the bling bling,
You know the deal who got the real thing, it's us that's
Who (the pj crew)

Got to drive new bitches like it's dah jay vu,
From our mouth to the mic through the cord to the
Speaker,
To the ear out the overarch, Death runs speaker,
Your knees get weaker, body starts to shiver,
Gonna lift your soul til the rhyme is delivered,

Rythemantic, systematic, mic control, magnetic

From our mouth to the mic through the cord to the
Speaker,
To the ear out the overarch, Death runs speaker,
Your knees get weaker, body starts to shiver,
Gonna lift your soul til the rhyme is delivered,
War zone action, Enemies hostile, Take no prisoners,
It's the old school new style, Boot camp done that,
Ready for the mission,

Climbing through the race, we got steady ambition,
Air assault, ground troops attack, Bombs from above
Going clickity clack,
Fight for the right, free speech on the mic, oh yeah
That's the shit I like,

Now why are you out? Getting tapped on that ah-,
Caught sleeping while you didn't get knocked the fuck
Out,
Now your Rollin with the invisible crew,
Paid dude, same brews, thought you knew,
This style is ours, can't be yours,
Play pranks, an tall maids and oh yes sirs,
Macignizms rockin so shut your mouth,
Smoke weed, slip your drink, now let me hear you
