

Briefs, The "Criminal Youth"

Visit "[Criminal Youth](#)" on MotoLyrics.com

Your really killing time
in a delinquent mind
Dead set and get everything that you hope
and if they gone with you
i saw the breaking news
Straped down in a laboratory now

We saw them put the drugs
that make them wanna love
sitting up and obeying everything
the pills were only what
the crazy people want

is all they'd never be
In love with criminal youth
in love with criminal youth
not the criminal views
Now there will be a new use

Your with the other hand
Your with the name brand
it intended to get tough and over test
we let it stray too far
on where we set the bar

Oh we got new pills to kill ya
you'll sit still in your seat
Sounds to me like a like a
To what We both agree

In love with criminal youth
in love with criminal youth
not the criminal views
Now there will be a new use

In love with criminal youth
in love with criminal youth
not the criminal views
Now there will be a new use

Call your doctor he can modify your children's minds

and simon knows what's something more than waste
some time
and davey says what something for then waste some
more?

I've done the weed before
hyper to the core
new drugs for kids is such a bore
even the time that they get to unwind
stay in control and feel fine
science cant find the brain yet
to keep them pacified
microscopes of the brain cells
smash 5 years of work
what can you say

In love with criminal youth
in love with criminal youth
not the criminal views
Now there will be a new use
