Takes her pill that makes her dumb, she moves too slow
She sleeps in an aquarium, she moves too slow
'halants, buds, and alcohol
My girl likes to take them all
She's always moving way too slow

Took her out so we could dance, she moves too slow
She left in the ambulance, she moves too slow
Throwing up, cold sweats, and shake
My girl, she hallucinates
She's always moving way too slow
She always speaks in monotone
Talks to the wall when she's alone (hello, hello, hello)
She loses things, she says oh well
When she's awake she just can't tell (at all, at all)

Just last night she lost control, she moves too slow
Now she lives at the hospital, she moves too slow
'halants, buds, and alcohol
My girl likes to take them all
The whole world's moving way too slow
She says the whole world's moving way too slow
And she don't know where she wants to go
The whole world's moving way too slow

Moves too slow
