

Briefs, The "We Americans"

Visit "[We Americans](#)" on MotoLyrics.com

we americans is dirty
we americans is positive
we dont know if we should be
we americans is cowboys
we americans love guns
aint no one can stop us
not even them injuns

so shoot the president
forget the national debt
it makes no difference to me
it dont effect my rent you see
and it has always been this way and it wont change
god bless the good old usa

We americans cant write
we americans dont read
and we dont want nobody
telling us what we need
cuz were better than that
and were better than this
and were better than everybody else
we got the dollars and we got the cents
and it has always been this way and it wont change
god bless the fucked up usa

You know you cant complain
we'll just wipe out the stains
we like to suck before we spit
we spray pain on the walls
cuz we love those shopping malls
all those purple track suits make me sick
thats it, we quit

we americans is stupid
we americans dont write
aint no one can stop us
cuz we do what we like
