"Keep Us Alive"

Visit "[Keep Us Alive](#)" on MotoLyrics.com

victory is ours, it's time to claim our prize
after all that we went through
history has shown only the strong will survive
only the proud will stay true
we have our cause and thats what we live by
its the only thing we've got to make it through

alright, lets go
this is what we say

we've got nowhere to go
this life is all we know
take what comes and carry on
we cant give up, woah oh
we've got nowhere to go
this life is all we know
these words that we live by
will keep us alive
keep us alive
keep us alive

day after day we struggle to survive
sometimes theres no place for us to go
we've got to take a stand and fight to stay alive
we have to make it on our own
we cant surrender now, we've come to far
working our hands to the bone

alright, lets go
this is what we say

we've got nowhere to go
this life is all we know
take what comes and carry on
we cant give up, woah oh
we've got nowhere to go
this life is all we know
these words that we live by
will keep us alive
keep us alive
keep us alive

relent? yeah right
give up? yeah right

we've got nowhere to go
this life is all we know
take what comes and carry on
we cant give up, woah oh
we've got nowhere to go
this life is all we know
these words that we live by
will keep us alive
keep us alive
keep us alive

relent? yeah right
give up? yeah right
