I see you looking at me
And I'm looking at you
I see that we're on something new tonight
Don't you try to hide
It's impossible to fight it
Feel the rhythm and just
Grab on to me!

Can you feel it right
Is it black or white?
And you know just what you're doing to me,
Yeah.

Can you feel it right
Is it black or white?
You know what I want from you.

Play me like a violin, aha-ha violin
Play me like a violin, aha-ha
Hold me close and near!
Play me like a violin, aha-ha violin
Play me like a violin, aha-ha
Touch me anywhere you want
Just play me like!

Gotta let the music
Take over and control you
Let it in, just let it steal your heart tonight.
Pay close attention when I show
What you need to do
You've got my body wrapped up so tight.

Can you feel it right
Is it black or white?
And you know just what you're doing to me,
Yeah.

Can you feel it right
Is it black or white?
You know what I want from you.

Play me like a violin, aha-ha violin
Play me like a violin, aha-ha
Hold me close and near!
Play me like a violin, aha-ha violin
Play me like a violin, aha-ha
Touch me anywhere you want
Just play me like
A, violin
Just play me like, a violin [x3]

[Snoop Dogg]
I'm so cool, old school
Big Snoop Dog got 'em breaking the rules
I'm phenomenal, your mama knows
So I'ma go and get it
Phamous did the beat
So you know I gotta spend it
With the South Side boss
Twist that spinach
Put fire on the end of it
Let me hit it!
Baby you cute
But you need to be f*ckin' with Snoop
Kung-fu, let's see what it do
Cause oh...

Play me like a violin, aha-ha violin
Play me like a violin, aha-ha
Hold me close and near!
Play me like a violin, aha-ha violin
Play me like a violin, aha-ha
Touch me anywhere you want
Just play me like
A violin
Just play me like, a violin [x3]
