"Brown Eyes"

I've never seen such a smile before
The beauty in your eyes
Burning light like a fire, brown eyes

How you danced with me so carefully
'Cause the way you feel tonight
Might lose its strength till there's no
Way back, brown eyes

You know that you move me babe
Whatever you do
The way that you touched me darling
Whenever you're near

I know your brown eyes won't let me down
Lost in your brown eyes forever
Those pretty brown eyes they tell it all

It's those brown eyes right from the start

Don't say a word there's no need to talk
Hear the wind blow in the night
Capturing our moment, brown eyes

You know that you move me babe
Whatever you do
The way that you touched me darling
Whenever you're near

Those pretty brown eyes they tell it all
It's those brown eyes right from the start

You know that you move me babe
Whatever you do
The way that you touched me darling
