Hey if you really wanna fight with me  
Then drop the act and take accountability.  
Atone your wrongs and keep them near  
Don't wave your love for foolish fears.

Attention Threatening me now I've given up apology  
When stressing is no way to be  
No measure on how hard I could fall

Oh why do we do all the things we do  
That serve only to harm I left her feeling used  
The other person we had we lost in the crash  
I take a map to choose.

Hey if you really wanna fight with me  
Then drop the act to take accountability.  
Atone your wrongs and keep them near.  
Don't wave your love for foolish fears.

Someone who's certain  
Certain you're falling

It's in the beating of another breed  
It's in the pulse of the apology  
If you cut the tension in the monologue  
And bet no hope - give up it means let it be  
If you want to be asleep just hold my hand believe.

If you really wanna fight with me  
Then drop the act to take accountability  
Atone your wrongs and keep them near.  
Don't wave your love for foolish fears.

Don't know what you're really scared of I can tell  
The circles that you're running in your mind  
All well remove me from your sights or scare your heart  
To feeling mine

For where you're at  
You need to be yourself

solo guitar  
(one more fight!)

A good face, a good place, I was safe

(Whooo!)

Hey if you really wanna fight with me  
Then drop the act to take accountability.  
Atone your wrongs and keep them near  
Don't wave your love for foolish fears.

Don't know what you're really scared of I can tell  
The circles that you're running in your mind  
All well remove me from your sights or scare your heart  
To feeling mine.

Someone who's certain, certain you're falling  
(x2)
