You know what is what
But you don't know how to stop
I just rock in the club

You know what is what
But you don't know what's hiphop
I just rock in the club
You know what is what
But you don't know how to stop
I just rock in the club (x2)

You know what is what
But you don't know what to club

I just rock in the club

You know what is what
But you don't know how to stop
But you know, but you know
What is what!

You know what is what
But you don't know how to stop
I just rock in the club
You know what is what
But you don't know what's hiphop
I just rock in the club
