"Build A World"

Visit "[Build A World](#)" on MotoLyrics.com

I?d build a world for you (x2)
I?d do it all for you my love
I?d build a world for you

When it?s over you?ll see
What our world was meant to be
All the things that we have done
How could they be undone?

I?d build a world for you (x2)
I?d do it all for you my love
I?d build a world for you

The awful things I?ve done to you
(When it?s over I will show you)
They cannot be undone
(When it?s over you will know)

I?d build a world for you (x2)
I?d do it all for you my love
I?d build a world for you

So build a world for me
(When it?s over I will show you)
(When it?s over you will know)
So build a world for me
(When it?s over I will show you)
(When it?s over you will know)
There?s no precious time to be my love
(When it?s over I will show you)
(When it?s over you will know)
So build a world for me
(When it?s over I will show you)
(When it?s over you will know)
