It's taking a while, he said,
Keep shouting at the wall,
Never get out, he said,
Unless you take the fall,
Taking too long, I said,
I cannot climb this wall,
It's taking too long, I said,
Watch me as I fall.

Feel around the smoke forever,
Scratching at the air,
And the gods demand, but I can never,
Puncture the despair, the despair

An advert for the world, they gave,
In easy bit size pieces, pieces,
I cannot change the world, they said,

So we'll cut you into pieces, pieces

Feel around the smoke forever,
Scratching at the air,
And the gods demand, but I can never,
Puncture the despair, the despair

Feel around the smoke forever,
Scratching at the air,
And the gods demand, but I can never,
Puncture the despair, the despair

Feel around the smoke forever,
Scratching at the air,
And the gods demand, but I can never,
Puncture the despair, the despair
