I want to know why you leapt up and drove off alone
I want to say, I'm gonna reach out and change my
ways
Why did you leave me standing?
Why did you leave me?

I want to say, I'm gonna to reach out and change my
ways
Tell me which way things will roll?
How could you leave me standing?

How could you leave me standing?
How could you leave me standing here?
Am I the last man standing here?
How could you leave me standing here?

You drove off and left me here (x2)
You drove off and left me standing alone
You left me standing alone...

How could you leave me standing?
How could you leave me standing here?
Am I the last man standing here?
How could you leave me standing here? alone...
